## BPA-free, Bisphenol-free and Phenol-free Direct Thermal

The BPA-free Direct Thermal product range from Avery Dennison allows label converters to prepare in advance for upcoming Bisphenol A (BPA) regulation, effective from January 2020. A broad BPA-free portfolio covers typical direct thermal applications - including short-term logistics, weigh-scale and retail.

BPA is a widely used chemical in manufacturing, and most consumers will come into contact with its products on a daily basis. However, recent concerns mean it will fall under EU regulations from January 2020.

Regulation focuses specifically on BPA content, and specifies a permitted concentration of BPA in thermal papers up to 0,02% by weight as of January 2020. Avery Dennison goes beyond regulation, and as well as the BPA-free range offers Bisphenol (BP)-free and Phenolfree solutions. It means that converters can respond well in advance to emerging brand owner demands, as well as the impending EU regulation requirements.

## Key features

- ▶ BPA-free, BP-free and Phenol-free direct thermal solutions
- ▶ Prepares for BPA regulation change (January 2020)
- Answers customised brand owner demands for BP-free and Phenol-free labels
- ▶ Full range covering multiple direct thermal applications
- ▶ Available with proven adhesives for direct thermal labels

## Recommended uses

- ▶ Short term logistics
- Weight scales
- ▶ General purpose retail

## **Product information**

	Product description	Adhesive
BM312	Thermal ECO BPA Free FSC S2045N BG40BR	Hotmelt
BK645	Thermal ECO BPA Free FSC S2000NG BG40BR	Emulsion
BM313	Thermal ECO BPA Free FSC R5000N BG40BR	Emulsion
AZ981	Thermal ECO BP Free FSC S2045N BG40BR	Hotmelt
BJ284	Thermal ECO BP Free FSC S2000NG BG40BR	Emulsion
